"House Erika", located at 1500m N.N. in the middle of the ski arena Sonnenalpe Nassfeld in Austria, is situated next to the Tressdorfer Almweg.

Nassfeld is one of the biggest ski resorts, with the most modern ski-lift facilities in Carinthia.

"House Erika" is the ideal starting point for hiking, mountain- and motorbike tours. Are you afflicted by summer heat or pollen? What are you waiting for - come to the alp and enjoy the fresh air.

Chirping birds and the melodic sound of cow bells let you forget about the noise and stressful city life.

Fresh clean air and friendly people. Take a seat - listen to the sound of nature around you and glide with your eyes over green alp grassland and mountains.

Nassfeld is a geologically unique area, rich in fossils, rare plants and a large variety of wild animals.

Hiking, nordic walking, swimming, fishing, mountain biking, rock climbing, Stanley-Rider, mountain roller, museums; motorcycling tours on curvaceous streets. The "Nature arena Nassfeld" offers lots of attractive possibilities!

Feel like going for a swim? - then off to the "Gailtaler bathtub" - the warm Presseggersee.

Or after just 1,5 hours drive you can also sunbath on a beach in Italy.

A must for all gourmets is a visit to one of the cosy and folksy mountain cabins. A taste of the famous "Gailtaler Speck" (ham), fresh milk, butter and cheese, traditional "Kärntner" noodles and lots of other local specialities - enjoyed in fresh mountain air is a guarantee for a recreative and healthy holiday.

In just a couple of minutes you can "Walk over" to Italy, where you can enjoy Italian cuisine.

Non-skiers can enjoy the beautiful landscape via cross-country skiing and extensive snow walking-tours. A free-of-cost ski-bus transports guests down to the valley, for enjoyment of cross-country skiing and ice-skating on nearby lakes.

Wulfenja

Nassfeld also offers lots of attractive entertainment for kids. Wide nursery slopes located near the Tressdorfer Alm offer safetyfirst baby lifts for that "first tentative steps on the planks" and penguin BOBO, the ski-school mascot, supports all the beginners.

I am looking forward to welcome you to our "House Erika" on the sunny Nassfeld in Austria.

Angela Arzl

Over 110 km of slopes at all levels, are prepared daily and with snow plant facilities, winter fun is always assured.

No less than 30 ski-lifts offer skiing and snow boarding under perfect conditions, without long queuing times.

A daily weather forecast can be found live on ORF2 and 3Sat or on our homepage [www.nassfeld.arzl.net](http://www.nassfeld.arzl.net)
